Subject: sequence search for 09/992,600

Please search commercial and interference databases for:

1. The nucleotide sequence of SEQ ID NO: 3.
2. The amino acid sequence of SEQ ID NO: 4.
2. references teaching amino acid fragments of SEQ ID NO: 4 wherein the amino acid fragments are at least 10 amino acids in length. I am trying to find references teaching polypeptide fragments consisting of only sequences from within SEQ ID NO: 4 (as opposed to polypeptides **comprising** fragments of SEQ ID NO: 4 flanked by sequences other than those from SEQ ID NO: 4)

Please let me know if you have any questions about this search request.

Thank you!
